PROFESSIONAL SUMMARY

Full-Stack Developer with professional experience building scalable web applications using the MERN stack and Next.js. Skilled in converting complex UI/UX designs into user-centric interfaces while ensuring seamless data integration and robust backend service delivery. Holds a Project Management Foundations certification and excels in agile workflows to deliver end-to-end multi-vendor marketplaces.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, NestJS, Express.js, Redux, Redux Toolkit, Tailwind

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM, Mongoose, Firebase Firestore

Backend & APIs: REST API, Swagger (OpenAPI), NextAuth.js, Stripe API

Caching & Queue: Redis, BullMQ

DevOps & Tools: Docker, Git, GitHub, pnpm, Cloudinary, Figma, shadcn/ui, Loveable AI

Soft Skills: Agile Methodology, Team Collaboration, Technical Problem Solving, Effective Communication

PROFESSIONAL EXPERIENCE

Pixel & Code — Full Stack Developer (Remote)

January 2025 – Present

- Architected and maintained scalable frontend applications using Next.js and TypeScript.
- Optimized performance, accessibility, and SEO across various client-facing projects.
- Engineered end-to-end features in collaboration with design and backend teams.
- Managed project planning and task tracking through agile workflows to ensure timely delivery.

TECHNICAL PROJECTS

Guptodhan – Multi-vendor Marketplace

[Live Project](#)

- Engineered a full-featured marketplace including product listings, cart functionality, and real-time tracking.
- Developed a dual C2C classifieds and B2C service booking system with scheduling features.
- Led project planning, feature breakdown, and task tracking to manage development efficiently.
- Implemented NextAuth (Email/Password, Google) with custom RBAC for Admin, Vendor, and Customer roles.

CodRed – Developer Forum & Code Editor

[Live Project](#) | [GitHub](#)

- Built a developer community platform with Markdown editor for posts and discussions.
- Integrated a real-time AI assistant using OpenAI/Gemini APIs for debugging and code generation.
- Implemented global search with MongoDB indexing for fast content discovery.
- Managed project planning, feature prioritization, and UI development using Tailwind CSS and shadcn/ui.

Aura Fusion GYM – Fitness Management Platform

[Live Project](#) | [GitHub Client](#) | [GitHub Server](#)

- Integrated secure booking and payment systems using Stripe for subscriptions.
- Built a Trainer Portal for scheduling, client progress tracking, and content management.
- Automated membership verification and class scheduling workflows.
- Led project planning, task organization, and feature delivery.
